PROFILE

Full Stack Developer with over four years of experience in web development, focused on PHP/Laravel, React and TypeScript, with hands-on experience running Linux and cloud infrastructure. I build REST and GraphQL APIs, custom e-commerce and SaaS platforms on MySQL and PostgreSQL, and stay with a project from the first line of code to deployment and production maintenance.

Lawyer with a postgraduate degree in Cybercrime and Digital Evidence. That background shows up as judgement on security, privacy and data protection in every technical decision.
